About Faisal

This is Faisal Ahamed, a national award-winning freelancer in Bangladesh. I started my journey as an E-commerce expert back in 2013. I've worked with 1500+ E-commerce platforms, including Amazon, Walmart, Shopify, eBay, Tiktok, Woo-commerce, Magento, and Customs-built websites.

I've been working at more than 1000 Amazon and Walmart stores in the past two years. As an entrepreneur, I've founded five business institutions based on E-commerce and digital services. Now I am ready to spread my knowledge and experiences to worldwide those highly interested in making a six-figure e-commerce store. With my well-established career as an Entrepreneur and Business Owner, I genuinely understand your business growth frequency and your vision for business growth.

Product Research Product Validation & Product Finalize

(One Product)

\$750

Product research, validation, and finalization are important steps in the process of launching a new product on Amazon as a private label seller. Conduct market research to identify potential products and niches that are in demand on Amazon. This could include analyzing trends, customer reviews, and competitors in your chosen category. We also negotiate and finalize the supplier on that part.

Inventory Sampling

(From Reputed Farm)

\$300

It's important to conduct an inventory sample test to ensure that which supplier provides the best quality products. This test will help you identify any potential issues with your product and make any necessary changes before it is made available to the public.

Sellers will make payment according to their needs. We forward the manufacturer invoice to our store owner.

Inventory Order

(As required)

Inventory Inspection

(as known as pre-shipment
inspection)

\$350

(One Product)

A pre-shipment inspection is an important step in the process of launching a new product on Amazon. This inspection is designed to ensure that the products you are planning to sell on Amazon are of high quality and meet your specifications. A professional inspection company with experience in pre-shipment inspections for Amazon products. This will ensure that your

You will need to obtain a unique product code known as a UPC (Universal Product Code) from GS1 (formerly known as the Uniform Code Council) for creating a new listing on Amazon. This is a unique identification number that is assigned to each product and is used for tracking and inventory management purposes.

UPC Purchase

(One Product)

\$200

A+ Content

(One Product)

\$300

A+ content is a feature offered by Amazon that allows sellers to add additional product information and high-quality images to their listings. This can help improve the visibility and attractiveness of your products on Amazon, leading to more sales.

Product image design with A+ content is an important part of creating an effective Amazon listing. Our creative designer will create and edit images for our product to look perfect.

Product ImageDesign

(One product, 6-7 images)

\$150

Listing Copywriting

(One Product)

\$100

Listing copywriting is an important part of creating an effective Amazon listing. Your listing copy is the text that appears on your product page and is used to describe your product and its features to potential buyers. Also, optimized content helps your listing to index Amazon A9 search engine that helps you grow organically

Product photography is an important part of creating an effective Amazon listing. High-quality product photos can help your products stand out from the competition and attract potential buyers. A professional photographer with experience in product photography will ensure that your photos are of high quality and accurately represent your products. We have a high-quality camera, tripod, and studio lighting. We add Model, props and backgrounds that complement your products and make them look appealing to potential buyers. We take 6-7 final photos of each product from different angles. This will give potential buyers a better idea of what the product looks like and help them make an informed decision. Our editor Edit and retouch your photos to make sure they are high-quality and ready for use on your Amazon listing. This could include adjusting the lighting, color, and contrast of the photos to make them look their best.

Product Photography

(One Time)

\$300

Product Videography Including Editing

(One time for a store)

\$400

Videographer will capture and the editor will edit the video to make a professional look. It should be a 30-50 sec video for our product.

After launching a product we need to run PPC ads and need to optimize keywords regularly to improve product rank. Also we need to monitor our product as well as competitor
